

Paragon Custom Homes: Striving for Excellence

For homes of enduring quality and exceptional value, look no further than Paragon Custom Homes, LLC. We will build your dream home from design to completion, providing unparalleled individual service and communication along the way.

Paragon builds high-quality custom homes at the best market price per square foot in and around Wentzville and in the City of Lake St. Louis, both near the City of St. Louis, Missouri.

Our homes are built with much advanced planning and the utmost attention to detail, because we believe that intelligent, actively engaged individuals can ensure an outcome of pride for all involved. We include unique custom options that other builders don't offer because we believe that eye-catching options are what make a house your home.

Imagine your home a showplace with gourmet-style kitchens, top-of-the-line appliances, spa-like master suite bathrooms with cultured marble vanity tops, hardwood flooring, beautiful doors and trims, generous interior and exterior use of brick and stone, walls of windows, soaring stone fireplaces, and any amenities that you would like to add. We include energy package features in every home we build, as well as quality construction features that make your home unique.

Also available is a 2-10 Home builder warranty, a 10-year foundation warranty, a two-year systems warranty, and a one-year craftsmanship warranty.

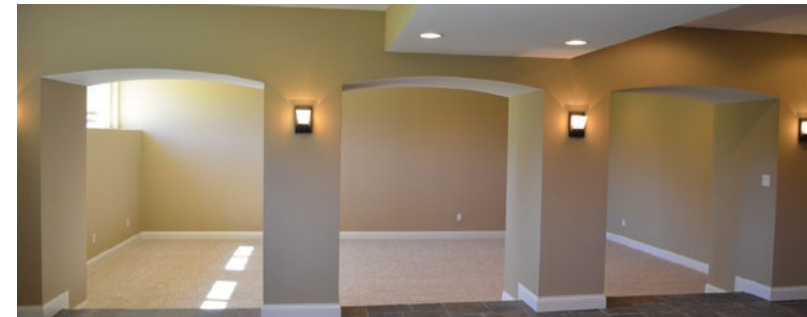

Testimonials

"It was easy to bring up details about the house and communicate with Paragon Custom Homes during the building process. They did everything they said they were going to do with honesty and integrity and we would not hesitate to recommend them to anyone." - Bill & Ruth

"I love our home and am thankful we met Kyle & Jason. They did a great job and everything was done with excellence, simplicity and most importantly, with honesty and integrity. The upgrades and custom options that came standard was a huge factor for us deciding to build over purchasing an existing home." - Walter & Stephanie

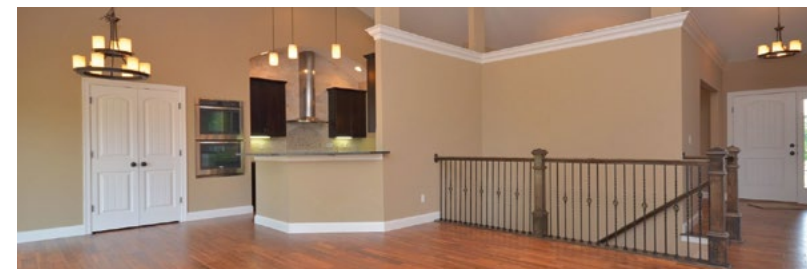

"We looked at 25-30 existing homes in our price range and the Paragon Custom Home was the best we could find for the money. The amount of details was what attracted us to this home. We have had other homes built for us in the past but after the sale this was the first time a builder contacted us and asked how the home was, and if there was anything that needed attention which was beyond our expectations."

- Jared & Amy

Awards

2013, 2014 - Builder of the Year from the City of Lake St. Louis, MO
